MEMORANDUM FOR:

[REDACTED]

25X1

FROM:

[REDACTED]

Deputy Chief, Real Estate and Construction
Division, OL

SUBJECT:

[REDACTED] Logistics Organization (C)

1. (U) Regarding my recent visit and discussions with you [REDACTED] there follows a listing of items which I plan to examine as requested by you:

a. The appropriateness of the current grade, number, and qualifications of senior Logistics personnel (rotatable personnel) [REDACTED]

b. The appropriateness of the current number and qualifications of public works (nonrotatable) personnel [REDACTED] including suggestions to improve the recruitment of such personnel.

c. The organization of the logistics effort [REDACTED] and possibilities for improving the integration of logistics functions.

d. The need for an engineering analysis of existing utility systems with particular emphasis on power, water, and sewer systems reliability through the 1985 time frame.

I provide this listing only to ensure that I have not omitted any areas which you would like to have examined. If so, please give me a call.

2. (C) It is my intent to collect data on similar functions [REDACTED] and, following discussions with others here within the Office of Logistics, make specific suggestions, as appropriate, regarding all of the above. Hopefully we will be able to provide several alternatives from which you can select or adapt the ones which would be most appropriate to your needs. I hope to have this information compiled for your consideration by early January.
